The Gaudi

These stylish handles incorporate all of the security needs into one simple unit using MiFare technology. The Gaudi locks are easily fitted to all types of doors and come equipped with an anti panic function and audible warning when the door is not fully closed.

Gaudi locks maintain the mechanical key emergency override and incorporate an audit trail of up to 1,500 events stored in its memory. The handle is able to operate as a standard room lock or in a meeting room mode. In addition, the Gaudi lock has LED and acoustic indicators to complement its stylish look.

The Gaudi is a complete stand alone handle, NO additional wiring is required in the building. Everything is contained within the handle.
